

# Heating Element H1901A for TS2200

SKU: GQ-H1901A

## Features & Benefits

- ◆ **Compatible with Quick TS2200 Soldering Station:** Works seamlessly with the TS2200 for a reliable and consistent soldering experience.
- ◆ **Designed for TSS31A Soldering Pencil:** Ensures efficient heat delivery when paired with the TSS31A Pencil for smooth, controlled soldering.
- ◆ **Rapid Heat-Up and Recovery:** Provides fast thermal recovery to meet the demands of continuous soldering work.
- ◆ **Durable and Long-Lasting:** Built for long-term performance, offering high reliability and durability even with regular use.
- ◆ **Precise Temperature Control:** Helps maintain optimal soldering temperatures for superior precision and consistent soldering results.

## About the Heating Element H1901A for TS2200

The Quick H1901A Heating Element is designed for use with the Quick TS2200 Soldering Station and the TSS31A Soldering Pencil, providing reliable, high-performance heating for all your soldering tasks.

Whether you're soldering delicate electronic components or carrying out general soldering work, this heating element ensures rapid thermal recovery and precise temperature control, helping to maintain consistent soldering quality throughout your projects.
