

Heating Element H617A for TR1100

SKU: GQ-EL-TR1100

Features & Benefits

- ◆ **Compatible with Quick TRS30A Hot Air Soldering Pencil:** Ensures efficient and consistent heat output for your soldering pencil.
- ◆ **Works with Quick TR1100 Hot Air Rework Station:** Integrates seamlessly with the TR1100 for superior hot air rework performance.
- ◆ **Reliable Heat Distribution:** Delivers uniform heat for precise and controlled soldering, reducing the risk of damage to sensitive components.
- ◆ **Durable and Efficient:** Built to last, providing long-term reliability and stable performance in demanding environments.
- ◆ **Easy to Replace:** Simple installation to get your hot air pencil or rework station back to optimal performance in no time.

About the Heating Element H617A for TR1100

The Quick H617A Heating Element is a high-performance replacement part designed for the Quick TRS30A Hot Air Soldering Pencil and the Quick TR1100 Hot Air Rework Station.

This durable heating element ensures consistent and reliable heat output, making it ideal for precise soldering, desoldering, and rework tasks.

Whether you're working with small, delicate components or need powerful heat for larger jobs, the H617A Heating Element provides stable and controlled thermal performance.
