Heating Element WXP 65

SKU: GW-EL-WXP65

Features & Benefits

- Compatible with WXP 65 soldering iron
- Provides consistent heat generation for accurate soldering
- Fast heat-up time for efficient workflow
- Durable and long-lasting for professional and hobbyist use
- Easy installation for quick replacement

About the Heating Element WXP 65

The Heating Element for WXP 65 Soldering Iron is a high-quality replacement part designed to restore the optimal performance of your Weller WXP 65 soldering iron.
This heating element ensures consistent heat generation and quick heat-up times, allowing for precise temperature control and reliable soldering results. Whether you're working on electronics, repairs, or DIY projects, the Heating Element for WXP 65 provides the efficiency and durability you need for high-quality work.
Easy to install, this essential component helps maintain the longevity of your WXP 65 soldering iron, ensuring it continues to deliver top performance.
