

# Heel Grounder with Clip ESD

SKU: G-SH-1

## Features & Benefits

- ◆ Hardwearing heel straps designed for long-term ESD protection and durability
- ◆ Velcro strap with a special comfort snap for improved comfort and reliability
- ◆ 1 Meg Ohm safety resistor incorporated into each heel strap for effective static discharge control
- ◆ Periodic testing required using a footwear test station to ensure grounding performance
- ◆ Provides reliable personal grounding in ESD-sensitive environments
- ◆ Ideal for electronics manufacturing, assembly areas, and other ESD-critical applications

## About the Heel Grounder with Clip ESD

**The Hardwearing Heel Grounder with a Velcro strap offers reliable ESD protection for personnel in static-sensitive environments.** Designed for long-term use, this heel strap incorporates a special comfort snap that improves comfort and reduces issues commonly found with standard Velcro closures.

Each strap is equipped with a 1 Meg Ohm safety resistor, ensuring effective static discharge control and protection against electrostatic build-up.

Ideal for use in electronics manufacturing, assembly lines, and other ESD-critical environments, this heel grounder ensures optimal safety for all personnel.

**The heel grounder is a crucial part of any personal grounding system and should be tested periodically using a footwear test station** to verify its grounding performance.
