

## Hose Kit - Laser 125mm - 2 x 100mm

SKU: 503-371

### Features & Benefits

- ◆ Includes two 1m lengths of 100mm hose
- ◆ Connects to a BOFA extraction unit using a long 125mm connection piece
- ◆ T-shaped adaptor for secure and flexible installation
- ◆ Jubilee clips at all ends for tight, secure connections
- ◆ Ideal for laser fume extraction in industrial settings
- ◆ Ensures optimal airflow and suction performance
- ◆ Durable and reliable for long-lasting use
- ◆ This kit includes two 1m lengths of hose, each featuring a 100mm diameter, and a T-shaped adaptor for secure integration

### About the Hose Kit - Laser 125mm - 2 x 100mm

The BOFA Complete Hose Kit - Laser 125mm with 2 x 100mm Hose is a reliable and efficient solution for connecting to a BOFA extraction unit.

This kit includes two 1m lengths of hose, each featuring a 100mm diameter, and a T-shaped adaptor for secure integration.

With a long 125mm connection piece and jubilee clips at all ends, this hose kit ensures tight, stable connections for effective laser fume extraction.

Designed for industrial environments, it guarantees optimal airflow and suction while maintaining long-term reliability.
