

Hose Kit - Laser Double 50mm

SKU: 503-368

Features & Benefits

- ◆ Dual 50mm hose kit for laser fume extraction
- ◆ Includes 2 x 4m lengths of 50mm hose, T piece, and 2 nozzle assemblies
- ◆ T-shaped splitter connects two extraction points to the unit
- ◆ 50mm diameter hoses for efficient airflow and suction
- ◆ 75mm sleeve adaptor for secure connection to the extraction unit
- ◆ Ideal for industrial laser systems and high-demand applications
- ◆ Durable construction for reliable, long-term performance

About the Hose Kit - Laser Double 50mm

The BOFA Complete Hose Kit - Laser Double 50mm with T Piece and Sleeve is a versatile and efficient solution for connecting two extraction points to your unit.

This kit includes two 4m lengths of 50mm hose, a T piece, and two nozzle assemblies, all designed to provide optimal airflow and suction for laser fume extraction.

With a 50mm diameter and a 75mm sleeve adaptor, it ensures a secure and seamless connection to the extraction unit, making it ideal for industrial applications that require reliable, high-performance fume extraction.
