

# Hot Air Soldering Pencil TRS30A for TR1100

SKU: GQ-TRS30A

## Features & Benefits

- ◆ **Real-Time Tip Temperature Monitoring:** Ensures accurate and stable temperature control for precise hot air soldering.
- ◆ **Rapid Thermal Recovery:** Quick heat-up and recovery time for uninterrupted soldering and rework operations.
- ◆ **Easy Tip Replacement:** Simplifies maintenance with quick and easy tip swaps, ensuring flexibility for different applications.
- ◆ **Compatible with TR1100 Hot Air Rework Station:** Seamlessly integrates with the TR1100 for a reliable hot air soldering setup.
- ◆ **Works with H617A Heating Element:** Provides optimal heating performance for effective soldering and desoldering tasks.
- ◆ Its easy tip replacement feature adds convenience, allowing for quick swaps to suit various rework tasks

## About the Hot Air Soldering Pencil TRS30A for TR1100

The Quick TRS30A Hot Air Soldering Pencil is designed to provide precise, efficient hot air rework capabilities when paired with the TR1100 Hot Air Rework Station.

Ideal for delicate soldering applications, such as SMD (Surface-Mounted Device) soldering and desoldering, this pencil offers real-time temperature monitoring and rapid thermal recovery, ensuring consistent and reliable results. Its easy tip replacement feature adds convenience, allowing for quick swaps to suit various rework tasks.
