

IPA Packet Wipes (100 Wipes)

SKU: G-WI002

Features & Benefits

- ◆ 70% IPA and 30% DI water for powerful cleaning and degreasing
- ◆ Ideal for solder paste removal, circuit board assembly, and printing machinery
- ◆ **Quick seal wipe clean packaging with easy flip/seal lid to prevent drying out**
- ◆ Environmentally friendly packaging, reducing waste
- ◆ Industrial-grade disposable cloth, tear-resistant and durable
- ◆ "C" fold design to prevent stretching or loose fibres
- ◆ **Pack of 100 wipes**, perfect for a wide range of industrial and medical applications

About the IPA Packet Wipes (100 Wipes)

IPA Packet Wipes are specially designed for precision cleaning and degreasing, making them ideal for industrial applications such as stencil cleaning, solder paste removal, and cleaning critical machine parts after maintenance.

These wipes are made from 70% IPA (Isopropyl Alcohol) and 30% DI water, offering superior cleaning properties for multiple surfaces. They come in environmentally friendly packaging with a convenient easy-flip seal lid, preventing the wipes from drying out.

Perfect for industries like electronics, aerospace, cleanrooms, and more, these durable, tear-resistant wipes ensure efficient cleaning without leaving fibres behind.

Specifications

Property	Detail
Fabric Weight	32gsm
Size	250mm x 250mm
Material	32gsm Polyviscose
Application	ESD-protected areas, electronics mfg, cleanrooms
