

Ionizers Small Bench Top KS-10H

SKU: 101-001-1

Features & Benefits

- ◆ Auto-ion balance within 5 volts for stable and efficient static elimination
- ◆ Out-of-balance alarm indicator to alert users to any ion balance issues
- ◆ Special alloy discharge needle for durability and easy maintenance with clip-on covers
- ◆ CE approved for safety and quality assurance
- ◆ 24V operation, also available with EU power supply
- ◆ Includes mains power supply lead and transformer for convenient setup
- ◆ Advanced high-frequency technology for superior static elimination over traditional methods

About the Ionizers Small Bench Top KS-10H

The Compact Bench Top Ionizers - Small from the distinguished High Frequency series offer superior performance in static elimination compared to traditional AC and DC static eliminators.

These advanced ionizers feature auto-ion balance within 5 volts, ensuring high-efficiency static elimination and stable operation. Their compact and lightweight design makes them highly convenient for a variety of workspaces, offering cutting-edge static elimination technology in a user-friendly format.

The special alloy discharge needle is not only durable but also easy to maintain, thanks to simple clip-on covers for hassle-free cleaning. With an out-of-balance alarm indicator, users are immediately alerted to any discrepancies in ion balance, ensuring continuous performance.

CE approved, the ionizer operates on a 24V system and is available with an EU power supply for versatile compatibility. It includes a mains power supply lead and transformer for easy setup and operation.

The unit's small size (102 x 120 x 58 mm or 4 x 4 x 2 inches) makes it perfect for compact environments where efficient static control is essential.

Specifications

Property	Detail
Dimensions	102 x 120 x 58 mm
Application	ESD-protected areas, electronics mfg, cleanrooms
