

Isopropanol 1 Litre IPA

SKU: 301-130-4

Features & Benefits

- ◆ **Effective Cleaner:** Efficiently cleans optical devices, electronics, and delicate components by removing dirt, oils, and other contaminants.
- ◆ **Gentle on Surfaces:** Safe for use on a wide range of materials, including plastics, rubber, composites, metals, and painted surfaces, making it versatile for many applications.
- ◆ **Quick Drying:** Isopropanol evaporates quickly, leaving no residue behind, which is essential for ensuring the functionality and longevity of electronic components.
- ◆ **Ideal for Electronics:** Perfect for cleaning PCBs, switches, screens, and other electronics where precision is critical.

About the Isopropanol 1 Litre IPA

Isopropanol 1 Litre IPA - A high-quality, alcohol-based cleaner that is gentle yet highly effective for use on a variety of electronic and precision devices.

This Isopropanol solution is perfect for cleaning optical devices, switches, printed circuit boards (PCBs), and general electronics, ensuring thorough cleaning without damaging sensitive materials.

Applications:

- **Optical Devices:** Cleans lenses, screens, and other optical components without leaving streaks.
- **Electronic Devices:** Ideal for use on circuit boards, switches, and general electronics where a clean, residue-free surface is crucial.
- **Precision Cleaning:** Great for jobs requiring delicate handling and safe cleaning of materials that are often sensitive to harsher solvents.
