- ◆ Featuring a 200J polymeric composite toecap, the shoe provides impact resistance without the weight of traditional metal toecaps

About the KAYAK S3 ESD Safety Shoe

Kayak ESD Safety Shoe – Premium Italian-Made Footwear with Exceptional Comfort and ESD Protection

The Kayak ESD Safety Shoe is a high-quality, Italian-made footwear designed for professionals who need both comfort and electrostatic discharge (ESD) protection. This metal-free shoe offers excellent value for money, with a lightweight and comfortable unisex design, making it ideal for long shifts in ESD-sensitive environments such as electronics manufacturing, cleanrooms, and laboratories. Certified to CE UNI EN ISO 20345:2012 SB FO A E SRC ESD Class 3, the Kayak Safety Shoe provides superior protection against static electricity, while offering the highest standards of safety and comfort.

Featuring a 200J polymeric composite toecap, the shoe provides impact resistance without the weight of traditional metal toecaps. The KUBE bidensity polyurethane sole is designed to be antistatic, anti-shock, and anti-slip, ensuring maximum durability and comfort while maintaining resistance to abrasion, hydrocarbons, and hydrolysis. The 5000 extracomfort insole is removable, perspiring, anatomic, and anti-bacterial, offering an ideal balance of moisture absorption and comfort. The Kayak ESD Shoe is also equipped with a flexible, anti-perforation composite fabric midsole to prevent punctures and provide additional protection.

Specifications

Property	Detail
