- ◆ **Requires rear support posts and Overhead Light & Tool Rail unit for mounting**
- ◆ Ideal for workstations, industrial environments, and assembly stations
- ◆ Provides focused lighting to improve workplace visibility and productivity
- ◆ Cost-effective and long-lasting lighting solution

About the L.E.D. Light Unit - 1200mm

The LED Light Unit (1200mm) provides bright, energy-efficient lighting for workstations, improving visibility and enhancing workplace productivity. Designed to be mounted on **rear support posts**, it **requires the Overhead Light & Tool Rail unit** for secure installation. This unit is ideal for environments where clear, focused lighting is essential, offering a long-lasting and cost-effective solution for illuminating work areas. The LED Light Unit (1200mm) is perfect for use in industrial workspaces, assembly stations, or any setting where effective lighting is crucial for precision and safety.
