

LEAD FREE Super Deox #1H Dross Eliminator 1lb

SKU: 390-162-LF

Features & Benefits

- ◆ **Dross Reclamation:** Reclaims over 80% of dross, converting it into usable solder and significantly reducing material costs.
- ◆ **Stable & Low Fuming:** Operates with minimal fume generation, offering a safer, cleaner working environment.
- ◆ **High Melting Point:** Ensures efficient dross removal without affecting the temperature of the solder pot.
- ◆ **Less Alloy Waste:** Reduces solder waste, helping to optimise solder usage and minimise costs.
- ◆ **Solid White Powder:** Easy to handle and apply, with precise control over the dross elimination process.
- ◆ **Indefinite Shelf Life:** Remains effective even after opening, providing consistent performance over time.

About the LEAD FREE Super Deox #1H Dross Eliminator 1lb

Super Deox #1H is a dross eliminator formulated specifically for lead-free solder pots, designed to convert solder oxides (dross) back into usable solder.

This powerful compound can reclaim over 80% of the dross, effectively reducing solder waste and lowering costs.

Super Deox is a stable, low-fuming, high-melting compound with no flash or fire hazards, ensuring a safer work environment.

The solid white powder is easy to apply and has an indefinite shelf life once opened, making it a long-lasting and cost-effective solution for managing dross in lead-free soldering operations.
