

# LED Magnifying Lamp - Long Reach

SKU: 201-503-R3L

## Features & Benefits

- ◆ **Energy-efficient LED:** Provides 820 lumens of bright, cool light for optimal visibility.
- ◆ **Long-reach flexible arms:** Maximum flexibility and precise positioning for intricate tasks.
- ◆ **Adjustable brightness:** Customisable light intensity for different tasks and environments.
- ◆ **Built-in handle and sun protector cap:** Convenient and protective design for safe handling.
- ◆ **Table clamp:** Securely attaches to your work surface with a clamping capacity of up to 65mm for stable positioning.
- ◆ **Rotating head:** Allows the lamp head to rotate up/down and left/right for full flexibility.
- ◆ **Adjustable swing arm:** Max length of 1180mm for precise positioning of the light.
- ◆ **Metal table clamp:** Heavy-duty clamp with a secure lock system for stability.
- ◆ **Easy lens swapping:** Quick and easy lens changes with the Easy-Click-Ring system.
- ◆ **Dimming options:** Single dimming function with adjustable settings to suit your needs.
- ◆ **No bulb replacements:** LED technology ensures long-term reliability and energy savings.
- ◆ The lamp features a high-quality 125mm (5") glass lens with a standard x3 dioptr (1.75x magnification) for general use, and an optional x5 dioptr lens (2.25x magnification) for more detailed tasks

## About the LED Magnifying Lamp - Long Reach

The LED Mag Lamp - Long Reach is the perfect tool for precision work, offering superior lighting and magnification for tasks such as electronics assembly, jewellery making, crafts, and repair work.

Designed with energy-efficient LED technology, it provides bright, shadow-free illumination through 60 white LED bulbs, ensuring clear visibility without glare.

The lamp features a high-quality 125mm (5") glass lens with a standard x3 dioptr (1.75x magnification) for general use, and an optional x5 dioptr lens (2.25x magnification) for more detailed tasks.

Its flexible, long-reach arms and adjustable joints allow for precise positioning, while the adjustable brightness control lets you customise the light intensity for different magnifier applications.

With a durable build, energy-saving LED technology, and a stable metal clamp, this LED Mag Lamp offers long-lasting performance and convenience.

## Specifications

Property	Detail
60 LED bulbs	Delivers shadow-free illumination for clear visibility without glare.
x3 Dioptr Lens (1.75x magnification)	Ideal for general magnification tasks.
Optional x5 Dioptr Lens (2.25x magnification)	Easily replaceable for high-detail work.
High-quality 125mm (5") Removable Lens	Durable, scratch-resistant glass lens for superior clarity.
Application	ESD-protected areas, electronics mfg, cleanrooms
