

Large Oval Head ESD Flush Cutter

SKU: G-HT-C12

Features & Benefits

- ◆ **ESD Safe:** Prevents damage to sensitive electronic components from electrostatic discharge.
- ◆ **Large Oval Head:** Provides precision cutting for larger tasks and better access to various workspaces.
- ◆ **Flush Cutter:** Guarantees clean, flush cuts for a smooth and professional finish.
- ◆ **Laser Cut Design:** Ensures accurate cuts and enhanced durability.
- ◆ **Cutting Edge Hardness (62 HRC):** Delivers long-lasting sharpness for consistent performance.
- ◆ **C70 Hardened Steel:** High-quality steel for strength, reliability, and durability.
- ◆ **Bi-Component Handles:** Ergonomically designed with supersoft grips for maximum comfort during extended use.
- ◆ Featuring a 1.8mm cutting capacity for copper wire, it offers clean, flush cuts for a professional finish

About the Large Oval Head ESD Flush Cutter

The Large Oval Head ESD Flush Cutter is a high-performance tool designed for precision cutting in ESD-sensitive environments. With a large oval head and supersoft bi-component handle grips, this cutter provides excellent control and comfort for cutting tasks. Featuring a 1.8mm cutting capacity for copper wire, it offers clean, flush cuts for a professional finish. ESD safe, it protects sensitive components from electrostatic discharge, making it the perfect tool for professionals working in electronics, assembly, and repair.

Specifications

Property	Detail
Cutting Capacity	1.8mm
Tool Length	125mm
Application	ESD-protected areas, electronics mfg, cleanrooms
