

Long Flat Nose Plier

SKU: GT-PN2018

Features & Benefits

- ◆ Long, smooth flat jaws rounded on the outside for safe component handling
- ◆ 160mm tool length for precision and control in tight spaces
- ◆ Steel thickness of 3mm for strength and durability
- ◆ Medium hardness (HRC 48-50) for optimal performance
- ◆ **Weighs** 78g for lightweight, comfortable use
- ◆ Ideal for delicate work without damaging components
- ◆ **Grip model:** St
- ◆ **Head:** Medium
- ◆ The PN 2018 Long Flat Nose Plier features long, smooth jaws rounded on the outside, making it ideal for gripping and manipulating components in tight spaces without causing damage

About the Long Flat Nose Plier

The PN 2018 Long Flat Nose Plier features long, smooth jaws rounded on the outside, making it ideal for gripping and manipulating components in tight spaces without causing damage.

With a steel thickness of 3mm and a total length of 160mm, these pliers offer excellent control and durability.

The ergonomic grip ensures comfort during use, while the medium hardness (HRC 48-50) provides optimal strength. Weighing only 78g, these pliers are lightweight and easy to handle for precision tasks.
