

## Long Needle-Nose Plier - Serrated ESD

SKU: GT-PN2005-ESD

### Features & Benefits

- ◆ ESD-safe grey handles to protect against static discharge
- ◆ Long serrated jaws for secure grip and precision in tight spaces
- ◆ 160mm tool length for enhanced reach and control
- ◆ Steel thickness of 3.0mm for added durability and strength
- ◆ Ideal for delicate electronics applications and fine manipulation tasks

### About the Long Needle-Nose Plier - Serrated ESD

**The ESD Long Needle-Nose Plier with serrated jaws is designed for precision gripping, especially in hard-to-reach areas.**

Its long, serrated jaws provide a secure grip, making it ideal for delicate electronics applications. With a 160mm tool length, these pliers offer excellent reach and control for intricate tasks.

The ESD-safe grey handles ensure protection against static discharge, safeguarding sensitive electronic components.

Made from high-quality steel with a thickness of 3.0mm, these pliers are durable and designed for long-lasting performance in professional environments.
