

Long Nose Plier - Smooth ESD

SKU: GT-PN2006-ESD

Features & Benefits

- ◆ Smooth, pointed jaws for precise handling in tight spaces
- ◆ ESD-safe grey handles to protect against static discharge
- ◆ 160mm tool length for extended reach and control
- ◆ Steel thickness of 3.0mm for strength and durability
- ◆ Ideal for delicate electronics and fine assembly tasks

About the Long Nose Plier - Smooth ESD

The Long Nose Plier - Smooth ESD is designed for precise work in difficult-to-reach areas.

Its smooth, pointed jaws allow for accurate manipulation of components without causing damage.

The ESD-safe grey handles ensure protection against static discharge, making these pliers perfect for sensitive electronic applications.

With a 160mm tool length and 3.0mm steel thickness, these pliers offer both durability and excellent control for intricate tasks.
