

MINORCA S2 ESD Safety Shoe

SKU: GS-MINORCA

Features & Benefits

- ◆ **Lightweight, Unisex ESD Shoe**
- ◆ **High-Quality Italian-Made Footwear** – Crafted for comfort, durability, and ESD protection in sensitive work environments.
- ◆ **High Shoe Design with MICROWASH Fabric** – 1.8-2.0 mm thick, offering abrasion resistance and breathability for extended wear.
- ◆ **ANTI-TORSION Insert** – Ensures stability and support, preventing foot strain and providing stability on uneven surfaces.

About the MINORCA S2 ESD Safety Shoe

Minorca ESD Safety Shoe – High-Quality Italian-Made Footwear for Optimal Comfort and ESD Protection

The Minorca ESD Safety Shoe is Italian-made, offering a perfect blend of comfort, durability, and electrostatic discharge (ESD) protection. Designed with a unisex fit, this lightweight shoe delivers superior antistatic performance while ensuring comfort throughout the workday. Certified to CE UNI EN ISO 20345:2012 S1P SRC ESD, the Minorca ESD shoe is ideal for professionals in environments where static control and safety are essential, such as electronics manufacturing, cleanrooms, and other ESD-sensitive workplaces.

The MICROWASH fabric upper (1.8-2.0 mm thickness) is highly abrasion-resistant and perspiring, making the shoe both breathable and durable. The 200J polymeric composite toecap provides impact protection without the added weight of metal, while the 3HYBRID polyurethane sole offers excellent shock absorption, anti-slip properties, and hydrolysis resistance. With an ANTI-TORSION insert in the sole, the Minorca shoe ensures stability on uneven surfaces, making it the perfect choice for professionals working in demanding conditions.

Specifications

Property	Detail
ESD Class	Yes
Lining	Highly Perspiring and Abrasion-Resistant Fabric
Toecap	200J Polymeric Composite
Sole	3HYBRID
Insole	5000
Sizes	36-47
Weight	470 g (size 42)
Application	ESD-protected areas, electronics mfg, cleanrooms
