- ◆ Chemically inert blades for added safety and durability
- ◆ Integrated lanyard hole for easy portability
- ◆ Ideal for home, office, and industrial use

About the Manual Pen Cutter Knife and Ceramic Safety Blades

The Manual Pen Cutter Knife with Ceramic Safety Blades is a versatile and essential tool for any environment, whether at home, in the office, or on the factory floor.

Equipped with Slice's finger-friendly® Ceramic Safety Blades, it provides a safer, more efficient cutting experience.

The knife comes with 1 x #10404 double-ended rounded blade, and features a rubberised slider button with two cutting depths, allowing you to adjust the blade exposure for different tasks.

Non-sparking, non-magnetic, chemically inert, and rust-free, this tool is perfect for both general and safety cutting applications.

Plus, the integrated lanyard hole makes it easy to keep handy.

Comes with 1 x #10404 double ended rounded blade.

Compatible Blades:

- Rounded Box Cutter #10404
- Pointed Box Cutter #10408
