

Medium Oval Head ESD Flush Cutter

SKU: G-HT-C4

Features & Benefits

- ◆ **ESD Safe:** Prevents electrostatic discharge, protecting sensitive electronic components.
- ◆ **Medium Oval Head:** Provides precision cutting, ideal for medium-sized workspaces.
- ◆ **Flush Cutter:** Delivers clean, flush cuts for a smooth and professional result.
- ◆ **Laser Cut Design:** Guarantees high precision and durability for long-lasting use.
- ◆ **Cutting Edge Hardness (62 HRC):** Ensures a sharp and durable cutting edge.
- ◆ **C70 Hardened Steel:** High-quality material that offers strength and reliable performance.
- ◆ **Bi-Component Handles:** Ergonomic, supersoft grips for maximum comfort and control during extended use.

About the Medium Oval Head ESD Flush Cutter

The Medium Oval Head ESD Flush Cutter is designed for precision cutting in ESD-sensitive environments.

Featuring a medium oval head and supersoft bi-component handle grips, it ensures optimal control and comfort during use.

With a 1.5mm cutting capacity for copper wire, this flush cutter delivers clean, accurate cuts for a professional finish.

ESD safe, it effectively protects sensitive components from electrostatic discharge, making it a reliable choice for electronics assembly, repair, and other delicate tasks.

Specifications

Property	Detail
Cutting Capacity	1.5mm
Tool Length	115mm
Application	ESD-protected areas, electronics mfg, cleanrooms
