

Medium Pointed Head ESD Flush Cutter

SKU: G-HT-C17

Features & Benefits

- ◆ **ESD Safe:** Prevents electrostatic discharge from damaging sensitive electronic components.
- ◆ **Medium Pointed Head:** Provides precision cutting in tight spaces and intricate applications.
- ◆ **Flush Cutter:** Guarantees clean, flush cuts for a smooth and professional finish.
- ◆ **Laser Cut Design:** Ensures high accuracy and durability.
- ◆ **Cutting Edge Hardness (62 HRC):** Maintains a sharp, long-lasting cutting edge.
- ◆ **C70 Hardened Steel:** Made from high-quality, hardened steel for reliability and strength.
- ◆ **Bi-Component Handles:** Ergonomically designed with supersoft grips for comfort and reduced hand fatigue.
- ◆ Featuring a pointed head and supersoft bi-component handle grips, it provides excellent control and comfort for detailed cutting tasks

About the Medium Pointed Head ESD Flush Cutter

The Medium Pointed Head ESD Flush Cutter is a high-precision tool ideal for ESD-sensitive environments.

Featuring a pointed head and supersoft bi-component handle grips, it provides excellent control and comfort for detailed cutting tasks. With a 1.2mm cutting capacity for copper wire, this flush cutter ensures clean, precise cuts for professional results. ESD safe, it protects sensitive components from electrostatic discharge, making it the perfect choice for electronics assembly and repair.

Specifications

Property	Detail
Cutting Capacity	1.2mm
Tool Length	115mm
Application	ESD-protected areas, electronics mfg, cleanrooms
