

Mobile FumeKART - 100mm arm

SKU: 503-403

Features & Benefits

- ◆ **Multi-Purpose Functionality:** Perfect for a variety of applications, including laser applications, hand soldering, jewellery manufacturing, laser hair removal, and many more, ensuring clean and safe air in diverse work environments.
- ◆ **High-Performance Filtration:** Includes three-stage filtration (pre-filter, HEPA filter, and gas filter) to effectively remove both particulates and gases, contributing to a healthier and cleaner workspace.
- ◆ **Portability:** The mobile design allows the unit to be easily moved from one location to another, making it ideal for dynamic or flexible work environments.
- ◆ **Filter Condition Indicator:** Alerts users when the filters need maintenance or replacement, ensuring efficient operation and optimal performance at all times.
- ◆ **Low Noise Level:** Operates at a quiet < 64dBA during typical operation, making it suitable for environments where noise levels need to be kept to a minimum.
- ◆ **Voltage Compatibility:** Suitable for use in regions with 115V to 230V power supply, making it versatile and adaptable for different electrical standards.
- ◆ **Centrifugal Blower:** Equipped with a centrifugal turbine that provides an airflow of 380m³/hr, delivering powerful suction to capture fumes and particulates.
- ◆ **Dimensions (HxWxD):** 840 x 475 x 550mm (without arm/spigot)
- ◆ **Voltage:** 90V - 257V Single-phase 1~ 50/60Hz
- ◆ Full load current: 12.5 amps
- ◆ **Weight:** 54kg, ensuring a stable unit while being easily portable for different workspace needs.

About the Mobile FumeKART - 100mm arm

The BOFA Mobile Fume KART with a 100mm arm is a highly versatile and portable dust and fume extraction system. **OPTIONAL VOC Sensing (Volatile Organic Compound) L3324A0004 available - ask for details.**

Designed to meet the needs of various industries that require effective filtration for both dust particles and harmful fumes. This system provides a highly efficient filtration process while offering the convenience of portability, making it perfect for work environments where mobility and flexibility are essential.
