

# Mobile FumeKART - 75mm arm

SKU: 503-402

## Features & Benefits

- ◆ **Multi-Purpose Functionality:** Ideal for use in laser applications, hand soldering, jewelry manufacturing, laser hair removal, and more. It is a reliable solution for various industries that need efficient fume and dust extraction.
- ◆ **High-Performance Filtration:** Equipped with three-stage filtration (pre-filter, HEPA filter, and gas filter) to capture both particulates and fumes effectively, ensuring clean air for a safer working environment.
- ◆ **Portable Design:** The compact and mobile design makes it easy to move the system around workspaces as needed, providing flexibility in a variety of environments.
- ◆ **Filter Condition Indicator:** Standard feature that alerts users when it's time to replace or maintain the filters, ensuring optimal performance.
- ◆ **Centrifugal Blower:** Powerful centrifugal turbine ensures high airflow of 380m<sup>3</sup>/hr, effectively extracting fumes and particles from the air.

## About the Mobile FumeKART - 75mm arm

The BOFA Mobile FumeKART is a versatile, mobile dust and fume extraction system designed for a wide range of applications. **OPTIONAL VOC Sensing (Volatile Organic Compound) L3224A0004 available - ask for details.**

Particularly well-suited for environments requiring effective filtration and clean air solutions. The FumeKART provides high-performance filtration with the added benefit of portability, making it ideal for workspaces where flexibility is essential.

### Compatible with:

- Pre-Filter A1030167
- Combined HEPA/Gas Filter A1030166
- 75mm Pen nozzle A1060150
- 200mm funnel A1020344
- 420 x 320 mm clear hood A1020384
- 385mm clear round hood A1080136

## Specifications

Property	Detail
Noise Level	64dBA
Voltage Range	Suitable for use with voltages from 115V to 230V, making it adaptable to different regions and electrical standards
Dimensions	840 x 475 x 550mm
Voltage	90V - 257V Single-phase 1~ 50/60Hz
Current	12.5 amps
Weight	54kg, offering a balanced weight that ensures stability without being overly cumbersome to move
Application	ESD-protected areas, electronics mfg, cleanrooms
