

Multi-Layer Tacky Mat - Blue

SKU: 107-260

Features & Benefits

- ◆ Blue colour for easy identification in controlled environments
- ◆ Antibacterial PROXEL LV biocide to reduce bacteria growth and maintain hygiene
- ◆ **30 removable layers per mat, with 4 mats per case**
- ◆ High-tack adhesive on each layer to remove dust, dirt, and contamination from shoe soles
- ◆ Ideal for use in cleanrooms, laboratories, and other controlled environments
- ◆ Convenient and easy-to-use peel-and-stick system for quick layer replacement
- ◆ This mat features antibacterial properties with PROXEL LV, a biocide produced by AVECIA, which helps reduce bacterial growth on the mat's surface, ensuring a cleaner environment

About the Multi-Layer Tacky Mat - Blue

The Multi-Layer Tacky Mat - Blue is designed to effectively remove contamination from shoe soles before entering sensitive environments such as cleanrooms, laboratories, and other controlled areas.

This mat features antibacterial properties with PROXEL LV, a biocide produced by AVECIA, which helps reduce bacterial growth on the mat's surface, ensuring a cleaner environment.

The mat is easy to use—simply peel off the rear protective backing and place it near entry or exit points. As each layer becomes soiled, it can be easily removed, revealing a fresh layer underneath. Each layer is coated with a high-tack adhesive that effectively removes dust and dirt contamination from shoes.

The mat contains 30 easy-peel polyethylene sheets per mat, with 4 mats per case, offering a convenient and efficient solution for maintaining cleanliness in high-traffic areas.

This Multi-Layer Tacky Mat is an essential tool for ensuring the cleanliness and contamination control of sensitive areas, offering hygienic protection and helping to maintain the integrity of the environment.
