- ◆ EN374-2, EN455 medical grade certification
- ◆ Supplied in a box of 100 gloves (50 pairs)

About the Nitrile Exam Powder Free Gloves, MEDICAL GRADE (100 Gloves)

The Nitrile Exam Powder-Free Gloves, Medical Grade, offer superior puncture and abrasion resistance, making them an ideal choice for medical and healthcare environments.

Made from synthetic nitrile rubber, these gloves are hypoallergenic and free from latex proteins, eliminating the risk of skin sensitisation. With a powder-free design, they minimise contamination risks while maintaining excellent flexibility and comfort.

The rolled cuff design, ambidextrous fit, and EN374-2, EN455 medical grade certification ensure reliable protection and optimal dexterity, perfect for professional use.

Supplied in a convenient dispenser box of **100 gloves (50 pairs)**, they offer a cost-effective, disposable solution for any medical setting.
