

# Overhead 4 Fan Ionizer

SKU: 101-001-6

## Features & Benefits

- ◆ Four independent fans with individual controls for customised static elimination
- ◆ Easy to clean and maintain with clip-on fan covers
- ◆ Auto-ion balance within  $\pm 5V$  for stable and consistent ionisation
- ◆ Light and quiet operation for minimal workspace disruption
- ◆ Built-in auto balance feature with out-of-balance alarm for optimal performance
- ◆ CE approved for safety and reliability
- ◆ Mains power supply lead included, also available with EU power supply
- ◆ Calibration available on request for accurate ion balance
- ◆ The unit features auto-ion balance within  $\pm 5V$ , delivering consistent ionisation for reliable static control
- ◆ With a built-in auto balance feature and an out-of-balance alarm, the ionizer automatically adjusts to maintain optimal ion levels, alerting users to any discrepancies

## About the Overhead 4 Fan Ionizer

The 4-Fan Overhead Ionizer is a powerful and efficient solution for maintaining a static-free work area, designed specifically for large workstations.

Equipped with four independent fans, each with individual controls and circuitry, this ionizer ensures optimal and customised static elimination across different zones.

The fans are designed for easy cleaning and maintenance thanks to clip-on fan covers.

The unit features auto-ion balance within  $\pm 5V$ , delivering consistent ionisation for reliable static control.

It operates with a light and quiet performance, making it ideal for workspaces that require high performance without disruption. With a built-in auto balance feature and an out-of-balance alarm, the ionizer automatically adjusts to maintain optimal ion levels, alerting users to any discrepancies. This unit is CE approved for safety and quality, includes a mains power supply lead, and is also available with an EU power supply. Calibration is available on request for precise ion balance.

The 4-Fan Overhead Ionizer is designed with a size of 1200 x 145 x 65mm, making it ideal for large workstations where efficient, high-performance static control is essential.

## Specifications

Property	Detail
Size	1200 x 145 x 65mm for large workstation coverage
Application	ESD-protected areas, electronics mfg, cleanrooms
