

Overhead Light & Tool Rail - 2000mm

SKU: GB-OLTR-20

Features & Benefits

- ◆ Light/Tool Rail for mounting fluorescent light units or tool tracks
- ◆ Ideal for hanging overhead tools such as air-operated screwdrivers
- ◆ **Requires rear support posts for secure installation**
- ◆ Available in various widths: 1000mm, 1200mm, 1500mm, 1800mm, and 2000mm
- ◆ Optimises workspace organisation by saving desk or workbench space
- ◆ Enhances tool accessibility and lighting in industrial or assembly workstations

About the Overhead Light & Tool Rail - 2000mm

The Light/Tool Rail provides an effective mounting solution for fluorescent light units or tool tracks, allowing overhead storage for tools such as air-operated screwdrivers and other equipment.

Designed to optimise workspace functionality, the rail helps free up valuable desk or workbench space by mounting tools and lighting above the workstation.

It **requires rear support posts** for secure installation.

Available in a **range of widths**, including **1000mm**, **1200mm**, **1500mm**, **1800mm**, and **2000mm**, the Light/Tool Rail is a versatile addition to any workspace, enhancing both lighting and tool accessibility in industrial or assembly environments.
