Features & Benefits

- ◆ Overhead Tool Track for mounting air-operated screwdrivers and other overhead tools
- ◆ **Requires rear support posts and Overhead Light & Tool Rail unit for secure installation**
- ◆ Maximises workspace efficiency and tool accessibility
- ◆ Ideal for use in workstations, assembly areas, and industrial environments

About the Overhead Tool Track - 2000mm

The Overhead Tool Track is an essential solution for organising and mounting overhead tools such as air-operated screwdrivers, drills, and other equipment.

Designed to optimise workspace efficiency, it **requires rear support posts and the Overhead Light & Tool Rail unit** for secure mounting.

This tool track is available in various widths—1000mm, 1200mm, 1500mm, 1800mm, and 2000mm—to accommodate different workspace sizes.

The Overhead Tool Track helps free up valuable desk space by providing a convenient, hands-free storage solution for tools, improving tool accessibility and workspace organisation.
