About the PPN 05 NB Pliers

The PPN 05 NB Plier is a specialised tool designed for the accurate insertion of contacts into multi-pole connectors.

Its ergonomic handle, curved at the end, provides added comfort and facilitates smooth and efficient insertion.

Compatible with various contact sizes, including 16SP, 16SS, 16P, 16S, 12P, 12S, 12, 8, and 4, this plier ensures reliable and precise performance.

Crafted with a steel thickness of 5mm and a total length of 170mm, it is both durable and easy to handle. Weighing just 115g, this tool offers excellent control for professional applications.
