

PREMIUM Baseball Cap ESD

SKU: 101-038-C-WH

Features & Benefits

- ◆ A sun visor to protect from glare and direct light
- ◆ Rubberised back ensures a comfortable and secure fit.
- ◆ The cap is available in a unisex, one-size design, making it suitable for a wide range of users in industries like electronics manufacturing, pharmaceuticals, and cleanroom environments.
- ◆ Designed to provide reliable ESD protection, this cap features an ESD symbol for easy identification of electrostatic safety compliance

About the PREMIUM Baseball Cap ESD

Our ESD Baseball Cap is an essential item for cleanrooms and environments where static-sensitive devices and assemblies are at risk of damage from electrostatic discharge.

Designed to provide reliable ESD protection, this cap features an ESD symbol for easy identification of electrostatic safety compliance. The cap is made from antistatic materials, ensuring that static charges are safely dissipated, reducing the risk of damage to sensitive equipment and components.

With its white colour and ESD symbol, the cap not only meets ESD safety standards but also offers a professional appearance for those working in high-precision environments. Ideal for use in cleanrooms, this cap helps maintain a static-free environment and protects valuable equipment from potential electrostatic damage.

For more information or to inquire about bulk orders, please contact our sales team.

Surface resistance is held within the $10^6 < R_s < 10^8 \Omega$ range, with volumetric (permeability) resistance at $R_v < 10^7 \Omega$, ensuring continuous static dissipation throughout the working day.

WASHING INSTRUCTIONS

Care & Washing Instructions

In order to preserve the long life of ESD clothing, you are advised to use industrial laundries who can provide controlled, documented washing procedures and environment.

- ◆ **MACHINE WASHABLE** — in cold or not warmer than 40°C (104°F) lukewarm water with neutral liquid detergent.
- ◆ **DO NOT USE** — detergent or fabric softeners containing bleach or chlorine, or any other form of alkalis or acids.
- ◆ **DO NOT TUMBLE DRY** — dry in the open air.
- ◆ **DOES NOT REQUIRE IRONING** — but if necessary the maximum temperature is 110°C (230°F) or lower.
- ◆ **DRY CLEANABLE** — with any solvent except Trichloroethylene.
