

PUBLIUS ESD Safety Shoe

SKU: GS-PUBLIUS

Features & Benefits

- ◆ **Lightweight, Unisex ESD Shoe**
- ◆ **High-Quality Italian-Made Footwear** – Designed for comfort, durability, and long-lasting ESD protection.
- ◆ The polyurethane/TPU sole features low electrical resistance, enhancing its suitability for environments requiring static control

About the PUBLIUS ESD Safety Shoe

Publius ESD Safety Shoe – Premium Italian-Made Footwear with Exceptional Comfort and ESD Protection

The Publius ESD Safety Shoe is Italian-made and designed to provide superior electrostatic discharge (ESD) protection without compromising on comfort or durability. This lightweight, unisex ESD safety shoe offers outstanding value for money, making it a top choice for professionals in ESD-sensitive environments such as electronics manufacturing, cleanrooms, and laboratories. Certified to EN ISO 20345:2011, the Publius Safety Shoe provides ESD class 3 protection while offering a comfortable, breathable fit that keeps feet cool and dry throughout the day.

The 200J aluminium toecap offers impact resistance while remaining lightweight, and the water-repellent breathable upper ensures comfort in various working conditions. The polyurethane/TPU sole features low electrical resistance, enhancing its suitability for environments requiring static control. The SANY-DRY® internal lining, made of 100% polyester, is a breathable, antibacterial fabric that absorbs and releases moisture, ensuring long-lasting freshness and comfort. The EVANIT ESD footbed is made of an advanced EVA and nitrile compound, offering excellent support, breathability, and low electrical resistance for a perfect fit.
