

PU Palm Gloves - Nylon ESD (1 Pair)

SKU: 122-202 | Sizes: Small, Medium, Large, Extra Large

Features & Benefits

- ◆ ESD knitted nylon gloves with polyurethane (PU) coating for enhanced grip and precision
- ◆ Dissipative, breathable, dust-free material made from 100% pure nylon (280 Denier, 13 gauge)
- ◆ Surface resistivity of $1 \times 10^6 - 8 \Omega / \text{cm}$ to prevent electrostatic discharge
- ◆ PU coating on palm and fingertips for superior tactile sensitivity
- ◆ Ideal for handling electronic parts in ESD-sensitive environments
- ◆ Perfect for use in ESD-protected areas and electronics assembly
- ◆ Lightweight, comfortable, and flexible design for precise work
- ◆ Sold as **1 pair per pack** for convenience and easy inventory management
- ◆ Durable and reliable for long-term use in high-tech environments

About the PU Palm Gloves - Nylon ESD (1 Pair)

Our ESD knitted nylon gloves with a polyurethane (PU) coating on the palm and fingertip sections are the ideal choice for handling sensitive electronic components in ESD-sensitive environments.

Made from 100% pure nylon (280 Denier with 13 gauge), these gloves feature a dissipative, breathable, dust-free material, ensuring both comfort and superior performance.

The PU coating enhances grip and provides tactile sensitivity, making them perfect for tasks requiring fine motor skills, such as assembling or repairing electronic parts. With a surface resistivity of $1 \times 10^6 - 8 \Omega / \text{cm}$, these gloves effectively prevent electrostatic discharge, safeguarding your valuable equipment and ensuring a secure working environment.

Sold as **1 pair per pack**, these gloves are lightweight, comfortable, and designed for long-lasting use. Ideal for use in ESD-protected areas, they meet the high standards required in the electronics industry.
