- ◆ Black colour with black ink, providing a professional and sleek writing tool
- ◆ Printed ESD susceptible symbol with "ESD" text for clear identification of ESD compliance
- ◆ Grip for easy hold, ensuring comfort during extended use
- ◆ Dissipative material with resistance range of  $1 \times 10^5$  to  $1 \times 10^9$  OHMS/SQ, ensuring safe static charge dissipation
- ◆ This high-quality pen features a sleek black design with black ink, making it a professional tool for everyday use in ESD-controlled environments

### About the Pen - Black Ink ESD

**The ESD Pen is specifically designed for use in static-sensitive areas and cleanroom environments, ensuring that your writing tasks are completed without generating harmful electrostatic discharge (ESD).**

This high-quality pen features a sleek black design with black ink, making it a professional tool for everyday use in ESD-controlled environments.

The ESD susceptible symbol and the text "ESD" are clearly printed on the pen, indicating compliance with ESD safety standards. The pen is made from dissipative materials with a resistance range of  $1 \times 10^5$  to  $1 \times 10^9$  OHMS/SQ, ensuring that static charges are safely dissipated during use. Its ergonomic grip ensures a comfortable hold, making it a practical addition to your ESD stationery collection.
