

# Piergiacomini ESD Distance Cutter 1.3mm

SKU: GT-TR5000-13-ESD

## Features & Benefits

- ◆ **Front cut design:** Cuts component leads to a precise 1.3mm from the surface
- ◆ **Steel thickness:** 5mm for enhanced durability
- ◆ **Tool length:** 147mm, ideal for use in hard-to-reach areas
- ◆ **ESD-safe:** Ensures protection against static discharge, safeguarding electronic components
- ◆ **Perfect for tight spaces:** Designed for precision cutting in confined or challenging environments

## About the Piergiacomini ESD Distance Cutter 1.3mm

The Piergiacomini ESD Distance Cutter 1.3mm is a specialised tool designed for front cutting in confined or difficult-to-reach areas.

It effectively trims component leads to a precise 1.3mm length from the surface, ensuring clean, accurate cuts. With a durable 5mm steel thickness and a total tool length of 147mm, this cutter is built for strength and ease of use in tight spaces.

Its ESD-safe design protects sensitive electronic components from static discharge, making it a reliable tool for high-precision electronic work.
