

## Pre Filter T30A

SKU: 503-571

### Features & Benefits

- ◆ **Filter Media:** Coarse material to capture large particles
- ◆ **Prolongs Filter Life:** Helps extend the life of the HEPA/Gas filter
- ◆ **Supplied as Individual Item:** Convenient for single replacements
- ◆ **First-Stage Filtration:** Protects and maintains the efficiency of the next stage filter

### About the Pre Filter T30A

The A1030093 BOFA Pre-Filter is designed as the first stage of filtration for the BOFA T30A fume extraction unit.

Made from coarse material, it efficiently captures larger particles, ensuring that the subsequent HEPA/Gas filter lasts longer.

This low-cost pre-filter not only helps maintain optimal air quality but also prolongs the life of the next filtration stage, making it an essential and cost-effective component for your BOFA T30A unit.

**Compatible with:**

- BOFA T30A fume extraction unit
