

Premium - Large Horse Hair Toothbrush ESD

SKU: 107-150

Features & Benefits

- ♦ Anti-static horse hair bristles ensure ESD safety, preventing static buildup
- ♦ 4 x 9 row configuration for optimal cleaning coverage and precision
- ♦ Strong plywood handle provides durability and a secure grip for extended use
- ♦ Ideal for board rework, cleaning, roughing, and general utility applications
- ♦ Perfect for use in ESD-sensitive environments, ensuring the protection of delicate components
- ♦ Featuring anti-static horse hair bristles, this brush ensures that no harmful static charges are generated during use, making it ideal for delicate electronic components

About the Premium - Large Horse Hair Toothbrush ESD

The Premium - Large Horse Hair Toothbrush ESD is a versatile, high-quality brush designed for ESD-sensitive environments. Featuring anti-static horse hair bristles, this brush ensures that no harmful static charges are generated during use, making it ideal for delicate electronic components.

The brush boasts a 4 x 9 row configuration for efficient cleaning, and its strong plywood handle ensures a firm, comfortable grip for extended use.

Particularly effective for board rework, cleanup, and roughing, it provides a stiff yet controlled brushing action.

This brush is widely used as a general utility brush for various cleaning tasks, offering durability and performance when a firmer brush is required.
