

Premium - Nylon Bristle Toothbrush ESD

SKU: 107-155

Features & Benefits

- ◆ 0.3mm nylon bristles for fine, precise cleaning of ESD-sensitive components
- ◆ Hand-laced aluminium handle with stainless steel wire for superior fibre retention
- ◆ ESD Safe, preventing any harmful electrostatic discharge (ESD) during use
- ◆ Popular for detailed cleaning of printed circuit boards (PCBs) and SMT assemblies
- ◆ Ideal for use as a fluid applicator in precision cleaning applications
- ◆ **Brush length:** 162mm, **Bristle dimensions:** 12mm width x 7mm height x 30mm length
- ◆ Featuring ultra-fine 0.3mm nylon bristles, this brush ensures safe cleaning of delicate components without generating harmful static charges

About the Premium - Nylon Bristle Toothbrush ESD

The Premium - Nylon Bristle Toothbrush ESD is a high-quality, precision brush designed for ESD-sensitive environments. Featuring ultra-fine 0.3mm nylon bristles, this brush ensures safe cleaning of delicate components without generating harmful static charges.

The bristles are hand-laced into a durable aluminium handle with stainless steel wire, offering maximum fibre retention for long-lasting performance. With a 3 x 11 row configuration, this brush is ideal for detailed cleaning tasks such as cleaning printed circuit boards (PCBs), SMT assemblies, and for use as a fluid applicator.

It ensures that every cleaning task is carried out with precision and care, making it an indispensable tool for professionals in the electronics industry.
