

## Q10 - Hot Air Nozzle

SKU: GW-Q10

### Features & Benefits

- ◆ Four-sided heated nozzle with integrated pre-heating plate
- ◆ Compatible with HAP 1, HAP 200, and WXHAP 200 hot air tools
- ◆ Ensures uniform and efficient heat distribution
- ◆ Supplied individually (1 per package)
- ◆ Ideal for reworking larger components with precision
- ◆ Part of Weller's professional-grade hot air nozzle range

### About the Q10 - Hot Air Nozzle

The Weller Q10 Hot Air Nozzle is a robust and high-performance accessory designed for precision rework involving large components.

It features four-sided heating along with an integrated pre-heating plate to ensure even and efficient heat distribution. With dimensions of 18.0 mm in both length and width, the Q10 is ideal for demanding soldering and desoldering applications.

Specifically designed for use with HAP 1, HAP 200, and WXHAP 200 hot air tools, it is supplied as a **single unit per package**. As part of Weller's professional nozzle range, the Q10 offers reliability, accuracy, and consistent thermal performance.

### Specifications

Property	Detail
Dimensions	Length 18.0 mm, Width 18.0 mm
Application	ESD-protected areas, electronics mfg, cleanrooms
