

QUICK 100-15S Lead Free Solder Pot (600 Watt)

SKU: GQ-100-15S

Features & Benefits

- ◆ **Heating Power:** 600W for fast, efficient heating and consistent temperature control.
- ◆ **Titanium Alloy Pot:** Durable, corrosion-resistant, and built to last.
- ◆ **Solder Pot Capacity:** 5.5 kg, large enough for high-volume work.
- ◆ **Closed-Loop Temperature Control:** Ensures precise and stable temperature for consistent results.
- ◆ **LCD Display:** Easily monitor the temperature in real-time for better control.
- ◆ **Anti-Erosion Materials:** Designed to withstand high temperatures and extend the lifespan of the unit.
- ◆ **Rapid Temperature Rise:** Quickly reaches the desired soldering temperature, improving workflow efficiency.
- ◆ **Digital Temperature Calibration:** Provides accurate adjustments and enhanced reliability.
- ◆ **Easy to Use:** Simple setup and operation, perfect for both professionals and hobbyists.

About the QUICK 100-15S Lead Free Solder Pot (600 Watt)

The Quick 100-15S Lead Free Solder Pot is a high-performance soldering solution designed for professional and high-volume applications.

Featuring a titanium alloy pot (91mm x 135mm x 60mm) and a 600W heating power, it offers rapid heating and precise temperature control. With a temperature range of 150°C to 450°C, it is ideal for lead-free soldering tasks.

The 5.5 kg solder pot capacity ensures ample material for various jobs, and the LCD display allows for easy monitoring of the temperature. Built with anti-erosion and heat-resistant alloy materials, this solder pot ensures durability and long-term reliability, while the closed-loop temperature control provides stable and accurate performance throughout.

Specifications

Property	Detail
Temperature Range	150°C to 450°C, perfect for lead-free soldering applications
Application	ESD-protected areas, electronics mfg, cleanrooms
