

Qualitek 392 No Clean Flux 1Litre

SKU: 390-392-01L

Features & Benefits

- ◆ **Low-solids, organic flux** with excellent wetting and fluxing activities
- ◆ **Leaves minimal residue** for bright, shiny solder joints
- ◆ Suitable for both foam and spray applications
- ◆ **Bellcore compliant** for high industry standards
- ◆ **Rosin/Resin-free** for a cleaner soldering process
- ◆ **Colour:** Straw
- ◆ **Specific gravity:** 0.820 at 25°C (77°F)
- ◆ **Shelf life:** 2 years (unopened)
- ◆ **Acid value:** 23-25
- ◆ **Solids content:** 3.1%
- ◆ **Flash point:** 53°F (TCC)
- ◆ **J-STD-004 Flux type:** ORL0

About the Qualitek 392 No Clean Flux 1Litre

Qualitek 392 No Clean Flux (1 Litre) is a low-solids, organic flux formulated for wave soldering, offering excellent wetting and fluxing properties.

It is designed to leave minimal residue, ensuring bright, shiny solder joints with a clean finish.

Suitable for both foam and spray applications, this flux is Bellcore compliant and free from rosin and resin. With a specific gravity of 0.820 at 25°C, it provides consistent performance and reliability.

This no-clean flux offers low residue and a long shelf life, making it an ideal choice for high-quality soldering with minimal post-soldering cleaning requirements.
