

Qualitek PF600 No Clean Paste Flux

SKU: 390-82 | Sizes: 13g/10cc Syringe, 40g/30cc Syringe

Features & Benefits

- ◆ **No Clean Formula:** Residues do not need to be removed after use, saving time and effort.
- ◆ **Rapid Wetting:** Promotes quick and efficient solder joint formation.
- ◆ **High Tack Force:** Ensures secure positioning of components during soldering.
- ◆ **Long Tack Time:** Provides ample working time for precise rework.
- ◆ **Ideal for SMD Repair/Rework:** Perfect for use in surface-mount device (SMD) applications.
- ◆ **Available Samples:** Requests available for registered users to test the product.

About the Qualitek PF600 No Clean Paste Flux

Qualitek PF600 No Clean Paste Flux is a high-performance flux designed for the repair and rework of SMD devices.

It is formulated with a blend of high-grade synthetic resins, rosins, and thixotropic thickeners, providing excellent performance for various soldering applications. This flux offers rapid wetting, high tack force, and a long tack time, ensuring optimal results during rework procedures.

Sample Requests are available to registered users.
