

Quick Hot Air Nozzles (STRAIGHT)

SKU: GQ-NK | Sizes: 5.0mm, 6.4mm, 8.4mm, 12.7mm

Features & Benefits

- ◆ Compatible with Quick 861 PRO, Quick TRS31A and TR1300 Hot Air Stations.
- ◆ Produced using a multi-stage plating process for enhanced durability
- ◆ Easy to fit for quick setup and use
- ◆ Ideal for soldering, desoldering, and reflowing
- ◆ Compatible with TRS31A Soldering Iron for added versatility
- ◆ High-performance design for professional and DIY electronics work

About the Quick Hot Air Nozzles (STRAIGHT)

These Quick Hot Air Nozzles are designed for use with the Quick Hot Air Rework Stations.

These nozzles are produced through a multi-stage plating process, ensuring outstanding durability and performance. Easy to fit, they provide efficient hot air flow for a range of applications such as soldering, desoldering, and reflowing.

Additionally, they are compatible with the TRS31A Soldering Iron, making them a versatile tool for various electronic repair tasks.
