

Quick TS2300 - Power Unit

SKU: GQ-TS2300-PU

Features & Benefits

- ◆ **LCD Display:** Provides a clear, accurate readout of temperature and settings.
- ◆ **Three-Channel Parameter Preset:** Allows for easy switching between different soldering configurations.
- ◆ **Real-Time Temperature Monitoring:** Tracks tip temperature for precise control and rapid thermal recovery.
- ◆ **Temperature Alarm Function:** Alerts you when the tip temperature exceeds set limits.
- ◆ **°C and °F Interchangeable:** Easily switch between Celsius and Fahrenheit units.
- ◆ **Easy Tip Replacement:** Quick and simple tip changes to keep your workflow smooth.
- ◆ **ESD Safe:** Protects sensitive components from electrostatic discharge.
- ◆ **ESD Monitoring Function:** Monitors and controls electrostatic discharge for safe operation.

About the Quick TS2300 - Power Unit

The Quick TS2300 Power Unit is a high-performance 150W intelligent power supply that meets the demands of professional soldering tasks.

With a vibrant LCD display, this unit ensures precise control over your soldering process. It offers three-channel preset parameters, allowing for quick switching between different soldering settings.

The Quick TS2300 also features real-time temperature monitoring and rapid thermal recovery for optimal performance.

Additionally, it provides easy tip replacement and comes with built-in ESD safety and monitoring, making it an excellent choice for high-quality, safe soldering operations.

Compatible with:

- Soldering Pencil TSS31B
- TS2300D Intelligent Soldering Station SET

Specifications

Property	Detail
Power Supply	150W
Application	ESD-protected areas, electronics mfg, cleanrooms
