

R01 - Measuring Nozzle

SKU: GW-R01

Features & Benefits

- ◆ Measuring nozzle for use with thermo element
- ◆ Compatible with HAP 1, HAP 200, and WXHAP 200 hot air tools
- ◆ Enables precise temperature monitoring during rework
- ◆ Supplied individually (1 per package)
- ◆ Ideal for temperature-sensitive applications
- ◆ Part of Weller's professional-grade hot air nozzle range

About the R01 - Measuring Nozzle

The Weller R01 Measuring Nozzle is a specialised tool designed for use with a thermo element, enabling precise temperature measurements during hot air rework processes.

With a fine 0.5 mm diameter, it allows accurate monitoring of airflow temperature, which is essential for delicate components and temperature-critical applications.

Compatible with HAP 1, HAP 200, and WXHAP 200 hot air tools, the R01 is supplied as a **single unit per package**. As part of Weller's professional nozzle family, it supports consistent, controlled performance in advanced electronic work.

Specifications

Property	Detail
Fine nozzle diameter	0.5 mm
Application	ESD-protected areas, electronics mfg, cleanrooms
