

Rear Panel Module - Louvre Panel

SKU: GB-RPM-LP

Features & Benefits

- ◆ Requires rear accessory rails for installation
- ◆ Part of a flexible track system for adding/removing modules
- ◆ **Compatible with other modules:** louvre panel, pin board, parts storage, and tool panel
- ◆ Ideal for organising small parts, tools, and accessories
- ◆ Provides flexible and customisable storage options for operators
- ◆ Enhances workspace organisation and efficiency

About the Rear Panel Module - Louvre Panel

The Rear Panel Modules – Louvre Panel is a versatile storage solution designed to keep small parts and tools organised within easy reach.

With a size of 470mm x 470mm, this louvre panel is compatible with **required rear accessory rails**, allowing it to slide onto a unique track system.

The flexible track system enables easy addition or removal of modules, including the pin board, parts storage, and tool panel, offering maximum flexibility for operators.

This modular approach ensures an optimised workspace, enhancing organisation and accessibility while adapting to specific needs.
