

Rear Panel Module - Tool Panel

SKU: GB-RPM-TP

Features & Benefits

- ◆ Requires rear accessory rails for installation
- ◆ Part of a flexible track system for adding/removing modules
- ◆ **Compatible with other modules:** louvre panel, pin board, parts storage, and tool panel
- ◆ Maximises workspace organisation and tool accessibility
- ◆ Provides flexible, customisable storage solutions for operators
- ◆ Ideal for improving workflow efficiency and organisation

About the Rear Panel Module - Tool Panel

The Rear Panel Modules – Tool Panel is a practical and space-efficient solution for organising tools and accessories in the workspace.

Measuring 540mm x 470mm, this tool panel is designed to slide onto **REQUIRED rear accessory rails**, offering a flexible and customisable storage option.

The unique track system allows modules, such as the louvre panel, pin board, parts storage, and tool panel, to be easily added or removed, providing operators with maximum flexibility.

This modular system enhances organisation and ensures tools are easily accessible, making it an ideal choice for improving workflow efficiency.
