## Features & Benefits

- ◆ Available in Standard/Full Height or Medium Height
- ◆ Supplied in pairs for balanced support
- ◆ Standard 50mm location hole pitch for all upper workstation accessories
- ◆ Designed for added stability and flexibility in workstation configurations
- ◆ Essential for supporting all upper workstation accessories

## About the Rear Support Posts (1150mm)

**The Rear Support Posts (1150mm) are essential for ensuring stability and support for all upper workstation accessories.**

Available in standard/full height or medium height options, these posts provide the necessary backing for your workspace, offering flexibility and convenience.

With a height above the work-surface of 950mm for standard posts and 500mm for medium posts, they are designed to accommodate a wide range of upper workstation accessories.

The standard 50mm location hole pitch ensures compatibility with all accessories, making them an ideal solution for customising and optimising your workstation setup.

**Also Available:**

- Rear Support Posts (650mm)
