

Rubber Bands (1Kg Bags) ESD

SKU: 101-120 | Sizes: 60mm Dia., 120mm Dia.

Features & Benefits

- ◆ ESD-safe rubber bands, designed to protect static-sensitive devices from electrostatic discharge (ESD)
- ◆ Available in 1kg bags, ideal for high-volume use in ESD-controlled environments
- ◆ Pink colour for easy identification and compliance with ESD safety protocols
- ◆ Perfect for use in electronics, manufacturing, and assembly applications where static protection is essential

About the Rubber Bands (1Kg Bags) ESD

Pink Anti-Static Rubber Bands are specially designed for use with static-sensitive devices, offering reliable ESD protection in electrostatic-controlled environments.

These rubber bands are made from ESD-safe materials, effectively preventing electrostatic discharge (ESD) while handling or securing sensitive components.

Available in convenient 1kg bags, they are ideal for high-volume applications in industries such as electronics, manufacturing, and assembly.

The distinct pink colour ensures easy identification in ESD-protected areas, making them a practical addition to any ESD-safe workstation.
