

# SMD 13" Component Reel Holder ESD

SKU: 109-505

## Features & Benefits

- ◆ **4 inside partitions** for organised storage of SMD component reels.
- ◆ Designed to securely hold 13" (330mm) diameter SMD reels.
- ◆ **External steel rim** adds strength and durability.
- ◆ 1.4mm thick walls for long-lasting and sturdy storage.
- ◆ Ideal for ESD protection, ensuring your SMD components remain static-free and protected.
- ◆ Featuring 4 inside partitions, it provides an efficient way to organise and store your SMD component reels securely

## About the SMD 13" Component Reel Holder ESD

The SMD Component Reel Holder is a premium storage solution designed for 13" (330mm) diameter SMD reels.

Featuring 4 inside partitions, it provides an efficient way to organise and store your SMD component reels securely. The holder is constructed with an external steel rim for added strength and stability, ensuring durability in high-use environments. With 1.4mm thick walls, this robust reel holder is perfect for safeguarding ESD sensitive components from potential damage.

### Dimensions:

**EXTERNAL** :500mm Length, 350mm Width, 175mm Height

**INTERNAL** :485mm Length, 330mm Width, 173mm Height

## Specifications

Property	Detail
External dimensions	500mm
Internal dimensions	485mm
Application	ESD-protected areas, electronics mfg, cleanrooms
